Super Lube® **DRI-FILM** lubricant is a lubricant that actually cleans while lubricating.

Super Lube® **DRI-FILM** leaves behind a protective shield lubricant that will not attract dust. The dry coating provides a low coefficient of friction which gives excellent lubrication and release properties.

Super Lube® **DRI-FILM** can be used on wood, paper, glass, rubber, fabric, leather, vinyl, metal and most plastics not under stress. It has excellent thermal and chemical stability, forming a natural insulating barrier when used on electronics.

Approved under MIL-L-60326 (MU) amendment 1.

Dri-Film 11oz. Aerosol
